

GCSE Geography Key Word Grid: Tectonic Hazards

Natural Hazard	Preparation	Aftershock	Slab Pull
Prediction	Focus	Seismic Waves	Plate Margin / Boundary
Subduction	Hazard Risk	Constructive Boundary	Secondary Effects
Geothermal Energy	Earthquake	Monitoring	Conservative Boundary
Epicentre	Seismologist	Ridge Push	Foreshock
Core	Primary Effects	Richter Scale	Oceanic Crust
Planning	Collision Zone	Volcano	Destructive Boundary
Magnitude	Fold Mountains	Mantle	Convection Current
Immediate Responses	Crust	Long-term Responses	Continental Crust
